2. **The "Rock" Bias:** Novice players overwhelmingly select Rock as their opening throw since it feels the most "effective."
3. **Double-Click Patterns:** Players frequently duplicate a losing throw two times in a row before recognizing they need to change methods.

Previous Round Outcome Common Human Reaction Ideal Counter-Strategy **Player Won with Rock** Repeats Rock Play Paper **Player Lost with Rock** Switches to Paper Play Scissors **Player Tied** Switches to the next logical item in sequence Varies based upon challenger profiling **Opening Round** Defaults to Rock (often) Play Paper
