How the Game Works: Core Mechanics

To genuinely master the skies, a player should first comprehend the fundamental mechanics of the game. While specific features can differ somewhat depending on the particular platform hosting the game, the universal framework remains constant.

The Flight Phase

Once a round starts, the aircraft takes off the runway and begins its ascent. As it climbs, a multiplier counter starts ticking up-- starting at 1.00 x and continuing to increase. The longer the flight continues without event, the higher the multiplier goes.

The Descent and Hazards

The skies are rarely clear. Along the flight path, different aspects appear that can either improve the player's score or prematurely end the run. These can consist of favorable tailwinds, fuel increases, storm clouds, or sudden altitude drops.

Cashing Out

The defining mechanic of Avia Masters is the component of risk versus reward. Players need to decide the optimal moment to "squander" or protect their development. Wait too long, and an unexpected risk may crash the plane, resulting in a lost round. Money out too early, and gamers might lose out on enormous multipliers.

Game Phase Description Gamer Action **Pre-Flight** Setting stakes or preparing the aircraft for launch. Location initial criteria or begin the round. **Ascent** The plane takes off; multipliers begin to climb up. Display the flight path and enjoy the multiplier grow. **Mid-Flight** Browsing hazards, gathering bonus offers, and evaluating threat. Decide whether to hang on or secure the existing score. **Resolution** The flight ends either through a successful cash-out or a crash. Gather benefits and prepare for the next round.
