The main objective for a player is to forecast which sector the wheel will stop on. Nevertheless, the game goes far beyond easy guessing; it presents a top slot that spins in tandem with the main wheel, possibly giving huge multipliers to routine numbers or bonus rounds on every single spin.

The Betting Layout

Before each round starts, players have a limited time to put their chips on the betting grid. The board includes 8 unique wagering choices, split between numerical payments and reward video games.

Bet Type Segments on Wheel Payout Odds Description **1** 21 1:1 The most typical section on the wheel. **2** 13 2:1 Uses double the stake on a win. **5** 7 5:1 A mid-tier number bet. **10** 4 10:1 The least regular numeric bet. **Cash Hunt** 2 Perk Game A shooting gallery benefit with 108 random multipliers. **Pachinko** 2 Perk Game A puck drop bonus offer leading to multipliers or double zones. **Coin Flip** 4 Bonus Game A basic red vs. blue coin flip with multiplier benefits. **Crazy Time** 1 Reward Game The supreme benefit round behind the red door with a massive secondary wheel.

Understanding the Bonus Rounds

The main attraction of Crazy Time lies in its four perk rounds. While numerical bets keep the balance ticking, the bonus offer video games provide the capacity for the most considerable payments, periodically reaching up to 20,000 x the gamer's stake.

- **Coin Flip:** A virtual coin with a red side and a blue side is turned by the speaker. Each side receives a random multiplier before the flip. Whichever side lands face up awards that multiplier to the gamer's bet.
- **Money Hunt:** Players exist with a screen showing 108 random multipliers hidden behind shooting targets. Utilizing a virtual cannon, the gamer picks a target, exposing their multiplier.
- **Pachinko:** A glowing puck is dropped from the top of a Pachinko wall filled with pegs. The puck bounces down up until it lands in among the multiplier slots at the bottom. If it strikes a "Double" slot, all multipliers on the board double, and the puck is dropped again.

- **Crazy Time:** Players go into a virtual world behind a giant red door including a gigantic 64-segment wheel. The gamer chooses one of three flappers (green, blue, or yellow). The wheel is spun, and whatever multiplier the selected flapper points to is awarded. If it arrive on "Double" or "Triple," all multipliers increase, and the wheel spins again.
