What is Crazy Time?

At its core, Crazy Time is constructed around a massive, vertically installed 55-segment wheel operated by a live speaker. Gamers position bets on numerous segments of the wheel before it spins. If the wheel stops on the sector the gamer bet on, they win.

However, what sets Crazy Time apart from a standard wheel video game is the addition of a **Top Slot**-- a small two-reel slot machine that spins simultaneously with the primary wheel. If that area wins and is coupled with a multiplier, the payout is increased accordingly, resulting in the video game's huge win capacity.

The following table breaks down the sectors, their frequency on the wheel, and their basic base payments:
