What is Big Bass Crash?

At its core, Big Bass Crash is a social multiplayer arcade-style game developed by Pragmatic Play. Unlike conventional slots where the result is determined immediately upon pressing a button, this game puts the component of control directly into the hands of the gamer.

The premise is basic: a brave fisherman sets sail on a boat, and as he journeys across the water, a multiplier coefficient begins to rise from **1.00 x** upward. The objective is for players to squander their jackpots before the boat crashes-- or in this case, before the net breaks or the fish leaves. If a gamer squanders successfully, they win their initial stake multiplied by the present value. If the crash occurs before they cash out, the bet is lost.
