What is Crazy Time?

At its core, Crazy Time is a live dealership game show built around a massive, vertically installed 55-segment wheel. Hosted by an energetic presenter, the game combines the simplicity of wheel-spinning with the interactive engagement of video-game-style perk rounds.

Players place bets on the segments where they believe the flapper will stop. If the wheel lands on a number, the bet wins. If it arrive at a bonus offer game symbol, players who placed a bet on that specific reward are transported to a different mini-game for a possibility at increased payouts.

The 55 sections on the wheel are distributed amongst four numbers and four perk games. Understanding this distribution is crucial for anyone looking to create a betting technique.

The Four Bonus Rounds Explained

The main allure of Crazy Time depends on its 4 perk rounds. These mini-games provide the greatest multipliers and the most visually interesting gameplay.

1. Coin Flip

The most basic of the reward rounds. A coin with a red side and a blue side is turned by a machine. Before the flip, random multipliers are designated to each side. Whichever side lands face up awards the gamer that corresponding multiplier.

2. Money Hunt

Gamers deal with a huge screen showing 108 random multipliers hidden behind various shooting targets (like cacti, targets, and hats). Using a virtual cannon, the gamer selects one target, and the surprise multiplier is exposed and used to their bet.

3. Pachinko

Inspired by the bitz.io standard Japanese arcade video game, a radiant puck is dropped from the top of a large board filled with pegs. The puck bounces down and lands in among the landing zones at the bottom, each featuring a multiplier. If it lands on a "Double," all multipliers on the board double, and the puck is dropped once again.

4. Crazy Time

This is the holy grail of the game. Gamers go into a virtual, surreal world behind a red door, welcomed by an even bigger giant wheel. Gamers need to select among 3 flappers (Green, Blue, or Yellow). The wheel spins, and any place the picked flapper stops determines the prize. Multipliers can reach up to **20,000 x**.
