What is Big Bass Crash?

Unlike standard video slots that depend on paylines, reels, and scatter signs, *Big Bass Crash* comes from the "crash game" category-- a design popularized by video games like *Aviator* and *Spaceman*.

In Big Bass Crash, the core mechanic is simple: a fisherman triggers in his boat on a river, and a multiplier starts to tick up from 1.00 x. The objective for the player is to squander their bet before the angler's net breaks (or the crash happens). If the player cashes out in time, they win their stake multiplied by the existing value. If the crash takes place before they cash out, the bet is lost.

While the gameplay mechanics are completely various from the standard *Big Bass Bonanza* slots, the game retains the iconic visual style, sound effects, and precious bearded angler character that fans have familiarized and enjoy.
