- **Reel 1** screens among the betting sections (numbers or bonus offer rounds).
- **Reel 2** displays a random multiplier (ranging from 2x approximately 50x).

If the section and the multiplier align horizontally on the Top Slot, a multiplier is applied to that particular bet or bonus round for the upcoming spin. If the wheel lands on that result, any wins achieved are increased accordingly, leading to the video game's most explosive payouts.

The Four Bonus Rounds Explained

The true heart and soul of Crazy Time depends on its 4 distinct perk rounds. These mini-games transportation players far from the primary wheel and into immersive digital environments where the biggest wins are possible.

1. Coin Flip

- **Frequency:** 4 segments on the wheel.

Before the flip, random multipliers are assigned to both the red and blue sides. Whichever side lands deal with up wins the appointed multiplier for the getting involved players.

2. Money Hunt

- **Frequency:** 2 sections on the wheel.
- **How it works:** Players exist with a huge screen including 108 random multipliers concealed behind shooting gallery targets (symbols like cacti, hats, and stars). When the timer begins, players must aim and fire a virtual cannon at a target of their choice. As soon as time expires, all targets reveal their concealed multipliers, and gamers get the multiplier corresponding to their picked target.

3. Pachinko

- **Frequency:** 2 segments on the wheel.
- **How it works:** Inspired by the traditional Japanese arcade game, Pachinko features a glowing purple wall filled with physical pegs. The host drops a puck from the top of the board, and it bounces arbitrarily down through the pegs before landing in one of a number of multiplier slots at the bottom.
- **The "Double" Feature:** If the puck lands in a slot labeled "DOUBLE," all multipliers at the bottom of the wall double, and the host drops the puck again. This can duplicate up until the optimum win cap is reached.

4. Crazy Time

- **Frequency:** 1 section on the wheel.
- **How it works:** The ultimate benefit round. The host opens a red door to expose a surreal, Alice-in-Wonderland-style virtual world featuring an enormous, 64-segment wheel.
- **The Process:** Players should select among 3 flappers (Green, Blue, or Yellow) connected to the top of the wheel. The host spins the wheel, and whichever multiplier the selected flapper points to when the wheel stops is awarded to the player. Just like Pachinko, this wheel features "DOUBLE" and "TRIPLE" segments, allowing multipliers to escalate as much as 20,000 x.
