

Counter-Strike 2 (CS2) has actually restored the precious skin economy that made its predecessor a cultural [cs2skin.com](#) phenomenon. Among the countless cosmetic products, a small subset sticks out for their scarcity, aesthetic appeals, and market value-- CS2 rare skins. In this article, we'll break down what makes a skin "uncommon," examine the rarity tier system, highlight the most sought after antiques, and offer practical recommendations for collectors and financiers alike.

## What Defines a "Rare" Skin?

In CS2, "uncommon" does not refer to a single classification. Instead, rarity is a combination of several qualities:

1. **Rarity Tier**-- The official drop-rate category assigned by Valve (e.g., Mil-Spec, Restricted, Classified, Covert, Rare Special Item).
2. **Drift Value**-- The quantity of wear (from 0.00 to 1.00). Lower float numbers typically indicate a cleaner look and higher desirability.
3. **StatTrak™**-- An unique turning point that tracks kills. StatTrak variations of particular skins command a premium.
4. **Age & Availability**-- Skins that have not been offered for purchase for years, or those that were gotten rid of from the video game's loot tables, end up being progressively scarce. Aesthetic Demand-  
- Unique finishes, vibrant
5. **colors, or thematic ties to major occasions can drive need beyond what the base rarity tier would suggest.** **Rarity Tier Overview Below is a succinct table of the standard rarity tiers**
