Lip Filler With a Go Slow Approach for Scottsdale Ranch Clients Ask a handful of people in Scottsdale Ranch what worries them about lip filler and the same answer comes up again and again: they do not want to look overdone. That concern is reasonable, and it is exactly why a measured, go slow approach matters. At The Skin Shop Medspa Scottsdale, lip filler is one of the treatments co-owner Cyndie Nohr, RN is best known for, and Google reviewers repeatedly describe her results as natural-looking and her pace as patient. Hyaluronic acid fillers such as Juvederm and Restylane can add shape, definition or a little volume to the lips. The skill lies in deciding how much is enough. Many first-time clients prefer to start conservatively, live with the result for a while and return later if they want a bit more. That approach respects the natural proportions of the face and gives people time to get comfortable with a change that friends and coworkers will see up close. Every plan begins with a complimentary consultation, where the nurse asks what you like about your lips now, what you would change and how you want them to look in everyday photos rather than filtered ones. Cyndie is often credited with an artistic eye, which helps when the goal is subtle balance instead of dramatic size. Results vary, and hyaluronic acid fillers commonly last six to twelve months or longer depending on the product and the area, so your med spa scottsdale own timeline is discussed in that first meeting.

The Skin Shop Medspa Scottsdale | 10632 N Scottsdale Rd Ste A, Scottsdale, AZ 85254 | (480) 948-1759

For Scottsdale Ranch residents, the drive is a straightforward run west along Shea Boulevard toward Scottsdale Road, usually quicker than people expect outside of rush hour. The office sits near the Scottsdale Country Club in North Scottsdale and has on-site parking plus free street parking nearby. It is owned by two registered nurses who are certified nurse injectors, so a licensed medical professional handles every syringe. Aftercare is part of the plan too. Some swelling is normal for a few days after lip filler, and occasional bruising can happen, so many people avoid booking right before a wedding, a photo shoot or a big trip. The nurse will explain what to avoid in the first day or two and when it makes sense to check back in. Clients who want to add more later usually wait until any swelling has settled, so the decision is based on the true result rather than a puffy first impression. If you have been thinking about lip filler but keep putting it off because of how it might look, a quiet conversation with a nurse is a sensible first step at a med spa in Scottsdale. Call (480) 948-1759, book online through Fresha, or stop by 10632 N Scottsdale Rd Ste A, Scottsdale, AZ 85254. The practice is open Tuesday, Wednesday and Friday from 10am to 5pm and Thursday and Saturday from 10am to 3pm.

The Skin Shop Medspa Scottsdale Address: 10632 N Scottsdale Rd Ste A, Scottsdale, AZ 85254 Phone: (480) 948-1759 FAQ About Med Spa Scottsdale What is the difference between a med spa and a day spa? A day spa focuses on relaxation services such as massages and basic facials, while a med spa provides medical aesthetic treatments like Botox, dermal fillers, microneedling and laser procedures. At The Skin Shop Medspa Scottsdale, those treatments are performed by registered nurses who are certified nurse injectors. Every plan begins with a review of your health history during a complimentary consultation. Who performs the treatments at The Skin Shop Medspa Scottsdale? Treatments are performed by the co-owners, Cyndie Nohr, RN and Shelly Stump, RN, both registered nurses and certified nurse injectors with more than 50 years of combined medical experience. They met while training at the National Laser Institute, where each earned certifications in laser, advanced injectables and cosmetic procedures, and they still treat clients personally. How much does Botox cost at a med spa in Scottsdale? Botox pricing depends on how many areas are treated and how much product each area needs, so the cost varies from person to person. At The Skin Shop Medspa Scottsdale, the nurse explains pricing for your specific plan during a complimentary consultation before any treatment. Google reviewers often describe the pricing as fair for the quality of care, and a membership program and financing options are available. How long does Botox last? For most people, the effect of a neurotoxin such as Botox or Jeuveau lasts about three to four months before muscle movement gradually returns. Results vary with factors such as the area treated, muscle strength and metabolism. The nurses set an individual maintenance schedule during your consultation, and online booking through Fresha

makes it easy to plan the next visit. How long do lip fillers last? Hyaluronic acid fillers such as Juvederm and Restylane commonly last six to twelve months or longer, depending on the product used and the area treated. Results vary, and your own timeline is discussed at a complimentary consultation. Co-owner Cyndie Nohr, RN is known for natural-looking lip filler and a go slow approach that leaves room to add more later. Is microneedling good for acne scars? Microneedling is commonly used to help improve the look of acne scarring and uneven texture by prompting the skin's own repair response. The nurses at The Skin Shop Medspa Scottsdale are candid that the goal is improvement rather than removal, and results vary with the type and depth of the scars. Some clients also discuss PRP therapy or Vivace RF microneedling as part of their plan. How many microneedling sessions will I need? Microneedling is usually planned as a series of sessions spaced several weeks apart, because the skin responds gradually. The exact number depends on your skin, your goals and how it responds, so the nurse sets the plan during a complimentary consultation. Reviewers mention receiving a follow-up text after treatment to check how their skin was settling. What is a HydraFacial and is there downtime? A HydraFacial combines cleansing, gentle exfoliation, extraction and hydration in one appointment, which suits skin dried out by the Arizona climate. It generally involves little or no downtime, so most people return to their normal plans afterward. At The Skin Shop Medspa Scottsdale, the treatment can be customized for sensitive skin, something Google reviewers have specifically mentioned. Is laser hair removal permanent? Laser hair removal is best described as long-term hair reduction rather than a permanent result. It requires a series of sessions spaced weeks apart because hair grows in cycles, and results vary by skin type, hair color and treatment area. Both owners hold laser certifications from the National Laser Institute, and sessions are planned around Arizona sun exposure. What should I avoid before Botox or filler? Before injectables, the nurses ask about medications and supplements that may raise the chance of bruising, as well as recent treatments, allergies and upcoming events. It is best to follow the specific guidance you receive at your consultation rather than stopping any prescribed medication on your own. Scheduling filler well ahead of weddings or photo shoots also leaves time for any swelling to settle. Does The Skin Shop offer a membership or financing? Yes. The Skin Shop Medspa Scottsdale offers a membership program for clients who visit regularly, and members who have left Google reviews describe it as worth it. There is also a financing and payment options page for larger treatment plans. The nurses can explain which option fits your plan when you call (480) 948-1759. How do I choose a med spa in Scottsdale? Start by asking who will perform your treatment and what their credentials are, then look for a practice that offers a thorough consultation and sets honest expectations. Read reviews for patterns rather than single comments. The Skin Shop Medspa Scottsdale is RN-owned, offers complimentary consultations, holds a 5.0 rating from 79 Google reviews and sits on N Scottsdale Rd near Shea Blvd.
