- **Pachinko:** Inspired by the timeless Japanese arcade game, a puck is dropped from the top of a wall filled with pegs. It bounces down until it lands in one of the slots at the bottom, each including a multiplier or a "Double" function that increases all multipliers on the board.
- **Crazy Time:** The supreme reward round. Gamers are carried behind a red door to a virtual, enormous wheel with 3 flappers (green, blue, and yellow). Gamers choose their flapper, and the wheel spins to award huge multipliers, doubles, and triples.

Popular Betting Strategies for Crazy Time

Due To The Fact That Crazy Time is a video game of possibility powered by a Random Number Generator (RNG) and physical wheel physics, no method can ensure an earnings. However, various betting techniques deal with different gamer designs and run the risk of tolerances.

1. The Conservative Strategy (Number Coverage)

- **The Approach:** Focus heavily on the regular numbers (1 and 2) while putting minimal coverage on bonus rounds.
- **The Goal:** Extend gameplay time. Since numbers 1 and 2 cover over 60% of the wheel, players adopting this strategy will win frequently, though the payouts are smaller. It is a way to remain in the video game long enough to sometimes strike a bonus offer round without draining the bankroll quickly.

2. The Bonus-Hunter Strategy

- **The Approach:** Place small bets solely on the 4 perk sections (Coin Flip, Cash Hunt, Pachinko, Crazy Time).
- **The Goal:** Chase the huge payouts. Players utilizing this method accept that they will lose lots of spins in a row while waiting on a benefit to trigger, but they intend to offset those losses when a high-multiplier bonus offer lands.

3. The Balanced Spread Strategy

- **The Approach:** Bet on a mix of numbers and all 4 perk rounds all at once.
- **The Goal:** Cover all bases. By betting throughout several sectors, the player ensures that a big portion of the wheel yields a return, keeping the excitement alive on almost every spin. Nevertheless, this strategy needs mindful stake management to avoid burning through funds too rapidly.
