How a Round of Crazy Time Works

numbers, perk rounds, or a mix of both.

2. **The Top Slot Spin:** Simultaneously while bets are being put, a two-reel slot device placed straight above the main wheel spins immediately. The left reel exposes a bet area (number or reward), and the best reel reveals a multiplier (ranging from 2x up to 50x). If the bet area and multiplier align, that multiplier is applied to the section for the upcoming spin.
3. **The Main Wheel Spin:** The live host spins the physical wheel.
4. **The Outcome:** When the wheel comes to a complete stop, the pointer shows the winning segment.
 - If it arrive on a **Number**, all gamers who bet on that number receive a payment according to the chances, multiplied by any Top Slot multiplier if applicable.
 - If it arrive on a **Bonus Game**, the video game shifts to a separate, immersive bonus offer round.

2. Money Hunt

- **Frequency:** 2 sections on the wheel.
- **How it works:** Players are provided with a huge screen displaying 108 random multipliers concealed behind shooting gallery targets (such as a bunny, a chef hat, a cactus, etc). A countdown timer begins, and each player should intend and fire a virtual cannon at the target of their option. When time ends, all targets expose their concealed multipliers, and players collect the multiplier related to the target they picked.

The host drops a puck from the top of the board, and it bounces randomly down through the pegs before landing in among several multiplier zones at the bottom. If the puck lands in a "DOUBLE" zone, all the multipliers at the bottom double in worth, and the puck is dropped again for an even bigger payment.

4. Crazy Time

- **Frequency:** 1 sector on the wheel.
- **How it works:** This is the ultimate bonus offer round. The host walks through a red door into a surreal, brilliantly colored virtual world featuring a gigantic virtual wheel consisting of 64 sections and 3 flippers (Green, Blue, and Yellow). Players pick one of the 3 flippers before the wheel is spun. The wheel can include

massive multipliers, "DOUBLE," and "TRIPLE" segments. If the wheel lands on a double or triple worth, all multipliers increase, and the wheel spins again, leading the way for the game's optimum payments.
