The Top Slot Feature

Before every spin of the primary wheel, a two-reel **Top Slot** spins all at once above the main screen.

- **Reel 1** screens a bet spot (a number or a bonus video game).
- **Reel 2** screens a multiplier (varying from 2x approximately 50x).

If the sign on Reel 1 matches the segment where the primary wheel lands, the multiplier is used to that win. If the Top Slot pairs a multiplier with a bonus offer round, all prizes inside that reward round are increased appropriately, leading to the huge payments Crazy Time is well-known for.

Dive Into the Four Bonus Rounds

The primary factor players flock to Crazy Time is the quartet of interactive benefit video games. When the wheel stops on a bonus offer sector, gamers who put a bet on that specific sector are transported (either digitally or visually) to a new mini-game.

1. Coin Flip

- **Frequency:** 4 sections on the wheel.
- **How it works:** A basic coin with a red side and a blue side is flipped by a mechanical flipper. Each side is appointed a random multiplier before the flip. Whichever side lands face up wins the multiplier for the getting involved gamers. If the multipliers are low, a "Rescue Flip" can in some cases be set off for a second possibility.

2. Money Hunt

- **Frequency:** 2 segments on the wheel.
- **How it works:** Players deal with a huge screen showing a carnival gallery of 108 random multipliers concealed behind numerous icons (such as a cactus, a target, or a chef's hat). A countdown begins, and players must use an on-screen crosshair to select a single icon. When time expires, all icons expose their covert multipliers, and gamers are awarded the multiplier corresponding to their picked target.

3. Pachinko

- **Frequency:** 2 segments on the wheel.
- **How it works:** Inspired by the standard Japanese arcade video game, players see a big Pachinko wall filled with physical pegs. The live host drops a puck from the top. As the puck bounces down through the labyrinth of pegs, it ultimately lands in one of the slots at the bottom, each consisting of a multiplier. If the puck lands in a "DOUBLE" slot, all multipliers at the bottom double, and the puck is dropped once again for even higher stakes.

4. Crazy Time

- **Frequency:** 1 segment on the wheel.
- **How it works:** This is the ultimate perk round. The host opens a red door leading into a surreal, gigantic virtual world behind the wall. Gamers are confronted with a massive wheel featuring three flippers (Green, Blue, and Yellow). Gamers select among these flippers before the wheel spins. The wheel features enormous multipliers, "DOUBLE," and "TRIPLE" sections. If a flipper arrive at a double or triple, all values on the wheel boost, and the wheel spins again. Multipliers in this round can reach up to a staggering **20,000 x**.

Tips and Strategies for Playing Crazy Time
