### The Purpose of Workers Compensation

The primary purpose of workers' compensation is twofold:

1. **Protection for Employees:** It ensures that workers receive necessary medical care and financial support during their recovery period.

### Understanding Work Injury Types

Different types of work injuries can occur, including:

- **Acute Injuries:** These happen suddenly due to an accident (e.g., slips, falls).
- **Chronic Injuries:** These develop over time due to repetitive stress or strain (e.g., carpal tunnel syndrome).
