The Top Slot: Doubling Down on Excitement

Before every single spin of the main wheel, a two-reel **Top Slot** spins all at once above the main game. One reel randomly selects a bet spot (a number or a reward video game), while the other reel selects a random multiplier (ranging from 2x approximately 50x).

If the bet area and the multiplier align horizontally on the Top Slot, that multiplier is used to the corresponding sector for that spin.
