

When managing a remodeling project, rental turn, or roofing tear-out in Hampton Roads, your choice of dumpster size can make a big difference. Choosing the right dumpster means avoiding overpaying for unused space or, worse, having to swap out a container mid-project. If you're considering a 10 yard dumpster from **D.E.M.M. DUMPSTERS LLC**, you might be wondering about the exact dimensions, weight limits, pricing, and scheduling ease. This post covers everything you need to know — from the dumpster's size and weight limits, to how to quickly schedule with their **24/7 online booking** and manage your rentals with a handy **customer login**.

Why Size Matters: Choosing the Right Dumpster

Dumpsters come in different sizes for a reason—different projects generate different amounts and types of debris. For homeowners and contractors alike, the sweet spot often lies with a **10 yard dumpster**. It's big enough to tackle moderate cleanouts, rental turns, small remodeling debris, or tear-outs, yet compact enough to fit most driveways without fuss.

Before booking, ask yourself:

- What volume of debris do I expect?
- Will bulky items or heavy materials like concrete or roofing shingles be included?
- What access do I have on-site for delivery and pickup (driveway size, overhead clearance)?

D.E.M.M. DUMPSTERS LLC provides detailed specs to help you make an informed choice.

Exact Dimensions of the 10 Yard Dumpster from D.E.M.M. DUMPSTERS LLC

D.E.M.M.'s 10 yard dumpster measures:

Dimension Measurement Length 12 feet Width 7.5 feet Height 3.5 feet Volume Capacity 10 cubic yards

These measurements—12 ft long, 7.5 ft wide roll-off, and 3.5 ft high—mean this dumpster can handle a nice amount of debris without crowding your driveway or street. If the size or height seems unclear or you're concerned about clearance under trees or power lines, D.E.M.M.'s team can help you confirm fit before scheduling.

Weight Limits and Overage Charges: What You Need to Know

To keep local permit rules and hauling safe, every dumpster service sets a weight limit. For the 10 yard dumpster from D.E.M.M., this is generally around **2,000 pounds (1 ton)**. This is enough for most household debris, yard waste, and light construction materials.

Important: D.E.M.M. DUMPSTERS LLC is transparent about these limits — no hidden fine print. They emphasize not overfilling past the fill line or piling material above the rim. Going over weight triggers additional charges, which typically run around *\$75 to \$125 per extra 500 pounds*, depending on local disposal fees.

Heavy debris like concrete, bricks, roofing shingles, or dirt often requires a heavier weight allowance dumpster or separate disposal plan. Always check with D.E.M.M.'s customer service for guidance if your project involves heavy materials.

How to Quickly Schedule Your 10 Yard Dumpster with D.E.M.M. DUMPSTERS LLC

One thing I appreciate from experience is straightforward and fast scheduling. D.E.M.M. makes this easy with:

- **24/7 online booking** – You can reserve your dumpster anytime, day or night, avoiding phone tag or office hours.
- **Customer login portal** – Manage your orders, billing, and scheduling in one place with clear documentation.

This means you avoid delays while juggling debris removal on a tight project timeline. If you're a contractor juggling multiple jobs, the customer login lets you track all your rentals and invoices in one dashboard.

Quick Checklist to Confirm the 10 Yard Dumpster is Right for You

1. Confirm your project debris type and approximate volume.
2. Measure available drop-off space, checking for length clearance and overhead obstacles.
3. Review D.E.M.M.'s weight limit of ~2,000 lbs for 10 yard dumpster.
4. Use their 24/7 online booking to reserve delivery date and time.
5. Create or log into your customer account for managing drop-off and pickup.
6. Keep debris below the 3.5 foot fill line and avoid overloading to steer clear of extra fees.

Clear, Upfront Pricing with No Surprises

Another pet peeve in dumpster rentals is deceptive pricing. D.E.M.M. DUMPSTERS LLC clearly states their base rental fees upfront, usually ranging from \$350 to \$450 for a standard 7-day rental of a 10 yard dumpster. This includes drop-off, pickup, and disposal within the weight limit.

Additional days are often around \$20 to \$35 per day if you need an extension, and overage fees are clearly communicated in advance. They also specify size and weight limits openly rather than burying them in fine print, which I respect and recommend you insist on with any dumpster provider.

Summary: Why D.E.M.M. DUMPSTERS LLC is a Top Choice for a 10 Yard Dumpster

- **Exact dimensions:** 12 ft long, 7.5 ft wide roll-off, 3.5 ft high – ideal for many residential projects
- **Transparent weight limits:** Around 2,000 lbs maximum with clear overage fees
- **Fast, reliable scheduling:** 24/7 online booking and seamless customer login portal
- **Upfront clear pricing:** Base fees include delivery, pickup, and disposal; no bait-and-switch tactics
- **Helpful customer service:** Guidance on size and materials for your project needs

If you're based in Hampton Roads and need a dumpster for projects ranging from small remodels to rental property turns, D.E.M.M. DUMPSTERS LLC's 10 yard dumpster is a great fit. Their clear specifications and ease of service help keep your cleanup running smoothly without hidden costs or scheduling headaches.
