The core principle is basic yet constantly thrilling: introduce the aircraft, collect as numerous multipliers and fuel boosts as possible, and secure a payment before the aircraft inevitably runs out of gas or crashes.

2. **Launch the Aircraft:** Once the round begins, the plane removes, ascending vertically or diagonally throughout the screen.
3. **Collect Multipliers:** As the airplane climbs up, it encounters different multipliers, stars, and fuel products drifting in the airspace. Passing through these items increases the total payout for the round.
