### What is the Aviator Casino Game?

At its core, Aviator is a multiplayer social game built around an increasing multiplier curve that can "crash" anytime. Unlike traditional slots where a random number generator (RNG) determines the outcome of a fixed spin, Aviator offers gamers a sense of agency.

The facility is deceptively easy:

1. A plane takes off on the screen.
2. As the plane climbs greater, the multiplier connected to the player's bet boosts.
3. The goal is to squander before the aircraft flies away (crashes).
4. If a gamer squanders in time, they win their stake increased by the existing coefficient. If the plane flies away before they squander, the bet is lost.

The game's aesthetic is deliberately minimalist, similar to early computer system graphics, which ensures it runs smoothly on both desktop and mobile devices without lagging.
