Pest problems in the Roanoke Valley follow the calendar. Termites swarm in spring, ants and wasps peak in summer, crickets and spiders move in as the weather cools and mice arrive with the first cold nights. Treating each problem only after it appears means you are always a step behind. That is why many local families choose ongoing service from Perdue Exterminators, and some describe it as the company they depend on every year for all their pest needs.

Regular service works because it follows the pests' timeline rather than reacting to it. Visits through the year can include exterior perimeter treatment, which customers sometimes call the yard power spray, to keep outdoor insects from entering. Technicians check for new activity, look for moisture problems and seal off entry points before the next seasonal wave arrives. Over time, this keeps problems small enough that they never become infestations.

Termite protection fits naturally into an annual plan. Perdue's termite elimination comes with renewable annual warranties, so the home is inspected and protection is maintained year after year. In a region where eastern subterranean termites are active across the valley, ongoing coverage is far more practical than a one time treatment followed by years of uncertainty.

Consistency You Can Count On

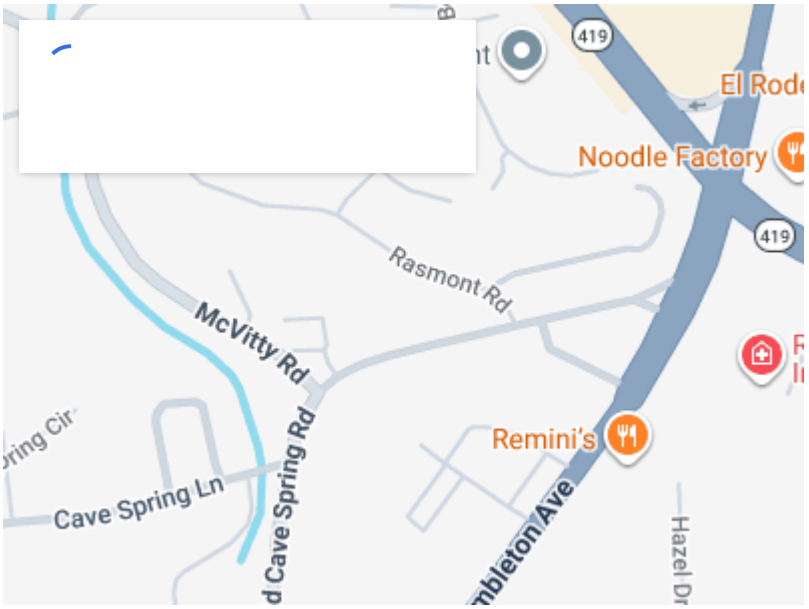

With a small, long serving team, Perdue customers often see the same experienced faces from visit to visit. Technicians remember where ants came in last summer, which corner of the crawl space stays damp and whether the attic had rodent activity last winter. That continuity leads to better results and more Additional reading useful advice than a different stranger every time.

An annual plan also gives you a direct line when something unexpected happens between visits. If a wasp nest appears under the deck or you spot a strange insect in the kitchen, you already know who to call and they already know your home. Insect identification is part of Perdue's service, so unfamiliar pests can be sorted out quickly.

Year round service makes sense for rental owners and businesses too, since documented regular treatment helps protect tenants, customers and reputations. Landlords with several properties around Roanoke and Salem find it easier to manage one schedule with one local company than to call around each time a tenant reports a problem.

To set up year round pest protection in Roanoke, Salem, Vinton or Smith Mountain Lake, call Perdue Exterminators at (540) 989-8188. The family owned company is based at 4323 Old Cave Spring Rd, Roanoke, VA 24018.

FAQ About Pest Control Company Roanoke

How do I choose a pest control company in Roanoke?

Look for licensed exterminators, a long local track record and a company that inspects before it treats. Perdue Exterminators has served the Roanoke Valley since 1969, is still family owned and keeps a small team of long serving technicians who inspect each home's environment and construction before recommending treatment. Call (540) 989-8188 to talk it through.

How much does pest control cost in Roanoke, VA?

Cost depends on the pest, the size of the home and how established the problem is, so an inspection gives the most accurate answer. Perdue Exterminators offers free estimates on termite work and a free inspection and consultation for bed bugs, and the company lists reasonable rates among its priorities. Call (540) 989-8188 for a quote.

Are termites common in Roanoke, Virginia?

Yes. Eastern subterranean termites live in the soil across the Roanoke Valley, and humid summers, clay soil and damp crawl spaces give them ideal conditions. Swarms usually appear on warm spring days after rain. Perdue Exterminators has treated termites in local homes for more than five decades.

Do termite treatments come with a warranty?

At Perdue Exterminators, termite elimination comes with renewable annual warranties. Renewing each year keeps a professional inspecting the home and keeps protection in place, which suits a region where termite pressure returns every season. A documented warranty can also help when you sell your Roanoke home.

How can I tell if I have bed bugs?

Common signs are itchy bites in lines or clusters, small dark spots on sheets and mattress seams, and tiny reddish brown insects around the bed frame or headboard. Because other insects look similar, Perdue Exterminators starts every bed bug case in Roanoke, Salem and Vinton with a free inspection and consultation to confirm the problem first.

Can mice be removed without using poison?

Yes. Perdue Exterminators describes itself as a humane, eco friendly rodent control company and uses baits and traps that do not rely on toxic poisons. Technicians also find and seal entry points such as gaps around utility lines and crawl space vents. The company advises calling as soon as you notice rodents, before they multiply.

When is pest season in Roanoke?

Pests are active most of the year in the Roanoke Valley, just in different forms. Spring brings termite swarms and ants, summer brings wasps, crickets and roaches, and fall brings mice and overwintering insects as nights cool. Year round service from Perdue Exterminators is timed around those seasonal shifts.

Do I need a termite inspection to buy a house in Virginia?

Many lenders ask for a wood destroying insect report, and most buyers want one either way. Perdue Exterminators prepares these reports for Roanoke Valley home sales and also offers water testing and septic

inspection reports for properties on wells and septic systems. Call (540) 989-8188 to schedule before your closing deadline.

What areas does Perdue Exterminators serve?

Perdue Exterminators serves all areas of Roanoke, Salem, Vinton, Smith Mountain Lake and the surrounding communities. The office is at 4323 Old Cave Spring Rd in the Cave Spring area of southwest Roanoke County, where the family has been based since the early 1980s.

Why are there so many crickets in my basement?

Camel crickets thrive in damp basements and crawl spaces, which are common in older Roanoke homes with stone or block foundations. Reducing moisture with a dehumidifier and repaired gutters helps a great deal. Perdue Exterminators provides cricket extermination and also helps eliminate and control crawl space mold caused by the same dampness.

Is a local pest control company better than a national chain?

A local company usually means familiar technicians, a local office that answers the phone and real knowledge of area housing and pest patterns. Perdue Exterminators has a technician who has been with the company since 1980, and its motto is large enough to serve you, but small enough to know you.

How long has Perdue Exterminators been in business?

S.G. Perdue founded the company in 1969, starting out of his house and the trunk of his car. His son Andre later joined the business, and today it is led by owner and President Jeff Hudson. It remains a family owned pest control company serving Roanoke.
