2. **Putting Bets:** A timer counts down, suggesting the wagering window. Gamers put their chips on the virtual betting grid on their screens.
3. **The Deal:** The dealership deals 2 face-up cards to each gamer and one face-up (and one face-down) card to themselves.
4. **Gamer Decisions:** Using the interactive buttons on the screen, players select whether to *Hit*, *Stand*, *Double Down*, or *Split*.

5. **The Dealer's Turn:** Once all gamers have actually completed their hands, the dealership reveals their face-down card and plays according to rigorous house rules (usually basing on all 17s).
6. **Payouts:** Winnings are instantly determined and credited to the player's account immediately.
